BODAGALA GOWTHAM

gb1443@srmist.edu.in | 9952010558 | 2026
B.Tech, Computer Science and Engineering
Address : DCC Aishwarya
B-217,POTHERI,KATTANKULATHUR,CHENNAI-603203,INDIA

SRM INSTITUTE OF SCIENCE & TECHNOLOGY
(Deemed to be University u/s 3 of UGC Act, 1956)

Education

SRM IST-Kattankulathur 2026
B.Tech · Computer Science and Engineering CGPA - 7.69/10

RATNA JUNIOR COLLEGE 2022
Class XII - STATE · MPC · HYDERABAD,TELANGANA Percentage - 85.5%

SRI SAI VIGNAN E M HIGH SCHOOL 2020
Class X - STATE · MPC · KADAPA Percentage - 89%

Projects

simulate modern traffic system Aug 2023 - Nov 2023
Dr.Rajalakshmi · python Computer Organization and Architecture

Designed and implemented a simulation model for a smart traffic management system integrating IoT sensors, real-time data, and AI-driven algorithms.

Simulated smart traffic lights, vehicle-to-vehicle (V2V) communication, and congestion prediction to optimize traffic flow.

Applied data analytics and machine learning to improve road safety, reduce waiting times, and minimize fuel consumption.

Tools/Technologies: Python, SUMO/Matlab (if applicable), Machine Learning, IoT frameworks.

Tic-Tac-Toe Aug 2023 - Nov 2024
Dr.Anitha · Html,Css C

Developed an interactive Tic-Tac-Toe game with options for two-player mode and AI opponent.

Implemented game logic, win/draw detection, and user-friendly interface using [Python/Java/C++/any language you used].

Applied concepts of algorithms, condition checking, and decision-making to ensure smooth gameplay.

Tools/Technologies: [e.g., Python, Tkinter, Java Swing, C++, or Web (HTML/CSS/JS)].

Cotton yield Crop Prediction Mar 2025 - May 2025
Dr. Thenmozhi R-Associate Professor · Python, Pandas, Scikit-learn, Matplotlib, Jupyter Notebook. Machine learning

Developed a machine learning model to predict cotton crop yield based on soil characteristics, rainfall, temperature, and fertilizer usage.

Implemented data preprocessing, feature selection, and model training using algorithms such as Random Forest and KNN for accurate yield prediction.

Achieved improved decision-making support for farmers by providing insights on optimal cultivation conditions and resource utilization.

Tools/Technologies: Python, Pandas, Scikit-learn, Matplotlib, Jupyter Notebook.

Certifications

Artificial Intelligence
AWS
Gained knowledge in machine learning, deep learning, natural language processing, and AI applications.

Hands-on practice with Python, neural networks, and real-world AI problem-solving.

Digital Image Processing
Matlab
Learned techniques for image filtering, transformation, histogram equalization, edge detection, and object recognition.

Skills

: c++, python, c programming

Languages

Tamil [Elementary Proficiency], Telugu [Native Proficiency], Hindi [Professional Working Proficiency], English [Professional Working Proficiency]
